

Questions before adding a tuition class

Decide on tuition with a clear reason, a budget and an end date, before you pay a deposit. Ten minutes on this page can save months of fees for a class that was not the answer.

Subject or class _____ Date _____

1 What exactly is the problem?

☐ Which topic or skill is hard right now? Name it as precisely as you can.

☐ What did the teacher say, and what did you see in recent work?

☐ What does your child say is hard, and do they want help?

2 What have we tried first?

☐ Asked the teacher how we can help at home, and whether the school has support for this

☐ Asked about the school's own learning support, such as LSP, LSM or dyslexia support (our guide lists them: raisingangels.sg/guides/learning-support-in-primary-school)

☐ Fifteen minutes of calm practice a few times a week, for three or four weeks

☐ Library books, free practice or a study buddy

☐ Checked for sleep, eyesight or worries that might be the real cause

3 Does it fit the week?

Shade what is already taken. Leave free time and play: children need it too.

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Afternoon							
Evening							

4 What will it cost?

Fee a month

S\$

Extras: materials, deposit, travel

S\$

Total for the months planned

S\$

5 How will we know it worked?

☐ One thing that will be different in three months:

☐ Our review date, and what we do if nothing has changed:

Our decision: Start / Wait and try home practice first / Not now (circle one). We do not rank tuition or enrichment providers.
